

# PRODUCT DATA SHEET

## ENGINE FLUSH CLEANER ADDITIVE

### Product Description

FORSTEK™ Engine Flush Cleaner additive, a chemical product that is proven to clean engines from different types of oil-soluble and oil-insoluble residues.

- Dissolves sludge and lacquer formers quickly and reliably.
- Highly effective cleaning fluid for clearing the engine interior of troublesome deposits, removing dust and foul effects in the engine.
- Develops full performance to an engine that has been cleaned of deposits and contamination and which is then filled with fresh oil not contaminated with old impurities.

### Usage Instructions

For gasoline and diesel engines. Apply as follows; (1) Add the bottle contents to the car engine before changing the old oil directly (2) Run the car engine for 10 minutes, while it's standstill, (3) Then drain the old oil along with the engine flush.

### Typical Properties

Appearance	Density at 15C	Kinematic Viscosity at 40 C	Flash Point	Freezing Point	Solubility in Water
Clear	0.825-0.84	1.9-3	>25 C	<-30 C	Insoluble

### Packaging

250ML, 500 ML, 1000, ML , 1000 LT IBC, Barral

### Storage & Shelf Life

- Packages should be stored in cool, well ventilated, and covered areas and their tap should be tightly closed and sealed when not in use.
- Ambient Temperature should not exceed 60 C°.
- When disposing of the used product, physical and chemical properties are to be taken into consideration.
- Shelf life: 3 Years
